THE MUSCULAR SYSTEM

To the healthy standard.

Every one should have a certain surplus of fleah to meet the emergencies of sickness; to resist the attack of consumption, grip, malaria and fevers. Thin blooded people are always getting sick, and none of the organs of the body can get along without the food they require for work, which is, pure blood. To gain and to keep strength and flesh is the secret of health, usefulness and happiness. With new blood and refreshed nerves a confident feeling of returning health comes also.

Irritated and begins to rise.

Mra Cioveland and two friends visited New Bedford, Mass., recently shopping, and were followed by crowds of gawks from store to store, which made her visit to convey her immediately to the wharf, where the steam yacht awaited her, and she took her departure for Gray Gables.

Nervous manifestations, such as sleep-lessness, nervous devility and nervous prostration are in nine cases out of ten "the cry of the starved nerves for food." If you feed the nerves on pure rich blood the nervous symptoms will cease. It is bad practice to put the nerves to sleep with so-called celery mixtures, coca compounds or malt extracts; what is needed is a blood maker. The "Discovery" is composed of vegetable ingredients which have an especial effect upon the stomach, liver, and blood making glands. For the cure of dyspepsia, indigestion, liver complaint, weakened vitality, and for puny, pale people, Dr. Pierce's Golden Medical Discovery cannot be equaled. Thousands have
